Subject: Estimate of Future EPA Costs for Gulfco
Date: Monday, March 04, 2013 11:28:57 AM

Gary – assuming the PRPs perform the work at Gulfco, what would be your estimate of future EPA oversight costs? (including PRP oversight and 5-year reviews, closeout, etc.). I think we sometimes ballpark oversight as 5-10% of the cost of the work, but Carlos or some of your colleagues may have additional thoughts. We are trying to finish the referral this month. Thanks.
